Ready for an Emergency!

By Ben Rominske, minister

This past week in the office, we had the fire extinguisher company come check out our equipment and emergency lights. I guess with the luck of the draw I had not been in the building previously when such checks occurred. Maybe you are already aware of the checking process but I was curious to know the what and why behind the need for it. The contents are under pressure, thus the integrity needs to be ensured. Likewise, the chemicals may need addressing over time as well.

I felt a little embarrassed to not have known previously where all the locations on our property were but I do now! To be honest I had not even noticed the obvious stickers that say where the extinguishers are behind doors as well as walking by many of them on the walls. I think it speaks to our focus as humans on what is now and only thinking about such matters when an emergency occurs.

Thankfully, we are all up to date and ready for such emergencies here at Watterson trail. With the physical taken care of I cannot help but think of the spiritual. After all, if we can tend to not notice emergency equipment unless it is needed, what does that mean for a spiritual emergency?

Ephesians 6:16 says, "In all circumstances take up the shield of faith, with which you can extinguish all the flaming darts of the evil one;" When was the last time you honestly and objectively checked your faith? See there are two types of extinguishers, rechargeable and disposable. Let me be quick to say none of us are disposable. Whatever our battles might be, it is not shameful to need a recharge. Be honest about it so you can get the help you need and be prepared!

Psalm 119:105 says: "Your word is a lamp to my feet and a light to my path." The emergency lights were also an important part of our checks this week. The lights are there to ensure if the power goes out we can see and safely exit/move about. The darkness is where we ought not to be, a place where the Lord is not and once of sin. Are you ensuring the path ahead is well lit or do you need to take the time to get more light? Again it is not the end if that is the case, address it so that you can be prepared and not stumble from that which was not exposed by the light.
